

“Caring for our Community”

“Sprockets” On the Road for Their 21st Relay!

Stawell Medical Centre “Sprockets” are again gathering momentum in preparation for their twenty first Team Entry in the annual Woody’s Murray to Moyne Relay raising funds for Stawell Regional Health.

Several “Sprockets” competed in the recent “Around the Bay in a Day” and have maintained their excellent fitness level throughout winter.

The History of the “Sprockets” is a long and proud one with a culmination of \$30,000 being raised in 2008 by the fourteen riders, their support crews and dedicated sponsors.

There will be a few spare places in the team this year, due to work and other commitments. Several existing 2008 team members have re registered, with Dr Peter Carter from Team 2007 having indicated his intention to return to support Stawell Regional Health and the “Murray to Moyne Relay”.

An information evening is being planned at Stawell Regional Health in the near future to launch the 2009 Relay. Intending riders, sponsors and support crew may telephone Meg Blake indicating their interest/participation regarding potential involvement for April 2009 P/h 5358 8513. The Information evening will be advertised in next Friday’s Stawell Times News.
